POTTLE HILL 10K - JUNE 24

Advertised as "New England's Toughest 10k". I won't argue with this claim. A beautiful course conducted mostly on back roads. It was a warm evening and the temperature was declining as the race progressed. Only slight breezes at the top. The real challenge of this race is the race's namesake. The 1st half of the course is climbing, with 1-24 stretch being a continuous uphill with no respite. At 5K you reach the top of Pottle Hill and are rewarded with some great vistas. "It just keeps going up," was a frequent comment. amd "I just had to walk on the last section." Runners whose legs were not totally shot at the top were rewarded with a fast second half as it is all downhill to the finish.. The kids were bused to the start of the 1 mile fun run and they all received merchandise prizes from the community as did most of the adults. Lots of support from police and ambulance. Great performance by Rick Stuart. Race director Bill McCoy announced that over $1500 was raised for Pottle Hill's programs for the disabled.
