

GEORGETOWN "U" STAR CAPTURES TRACK HONORS

R. Legendre Wins Pentathlon; Wins 200 Meters Race at Penn. Carnival.

Philadelphia, Pa., April 25.—Consistent performances in all five events enabled R. Legendre of Georgetown university, to carry off the pentathlon championship today at the first day's carnival of sports of the 25th annual relay races of the University of Pennsylvania on Frank Field. This is the first time since the pentathlon was established four years ago that it has been won by any other athlete than a University of Pennsylvania man. Howard Berry captured it three times and "Johnn" Bartels won it last year.

Legendre scored 14 points; Bartels was second with 20; the others who were finished were Lewis of Missouri, 21 points; Butler, Dubuque, 24; Eckberg, Dartmouth, 25, and Ensign, Ohio Wesleyan, 28. There were more than a dozen starters.

Legendre won the 200 metres race and finished second in the broad jump, discuss throw and 1,500 metres race, and seventh in the javelin throw.

Incidentally three pentathlon records made on Franklin Field were broken. Butler broke the broad jump figure and Bartels made new marks in the javelin and discuss throw.

Chicago won the distance medley American championship in the last few yards of the race through the great running of McCosh. Princeton led in the last relay to within 100 yards of the finish when McCosh, by a mighty sprint, passed McIlough, anchor man for the Jersey team.

The sprint medley relay championship of America was won by the University of Pennsylvania, whose team of sprinters led virtually all the way.

Landers of Pennsylvania, won the running, hop, skip and jump. His team-mate, Fraser, captured the four hundred and forty-yard hurdles event and Emory of Pennsylvania State college, was first in the 56 weight throw.

The thirty events on the program, many of them for local and suburban schools, were run under almost wintry conditions. The temperature was unusually low and a gale of wind so strong that it knocked down some of the hurdles swept the field.
