1990 Shaw's Thanksgiving Day 4 Miler

The results of this race are courtesy of Don Penta who indicated that there is a great desire out there to see them even in May. This Thanksgiving morning race provided 473 runners with an excuse to go home and gorge themselves with turkey. The 1989 version provided us with 3 to 4 inches of fresh snow but 1990 served up a good racing day. The course has some hills going out but speeds up coming home providing some reasonably good times. There were many runners from out of town, including the women's winner Christine Snow-Reaser from North Carolina. We are including hometowns along with the results for added interest.
