

NEW FACES ----

Joe Croteau, 34, joined the MTC after two years of running. What started as a method of weight control has now become a desire to run the Maine Coast Marathon this year in less than 4 hours. Joe grew up in Portland. He is married and a father of four children. He works for Lee Dodge when he is not logging in his 35-40 miles a week. He enjoys the April Amble hoping to break 30 minutes this year.
