

GOMPERS SAYS RAILROAD MEN WERE ONLY FAIR

In Address at Lewiston, Me., Head of American Federation of Labor Asserts Brotherhood-Asked Only That Their Lives and Welfare Be Protected.

LEWISTON, Me., Sept. 4.—In a Labor Day address here Samuel Gompers, president of the American Federation of Labor, praised President Wilson's administration for its achievements in the interest of the laboring man and denounced the decisions of the supreme court in the Danbury "hatters" and the Arizona anti-alien law cases, which he pointed out were participated in by Charles E. Hughes, the Republican presidential nominee.

In a lengthy discussion of the threatened railway strike he defended the brotherhoods, and, while he praised President Wilson for his efforts to settle the controversy, he denounced any attempt at legislation to compel arbitration.

"Eight-Hour Workmen Better." "The demand of the brotherhoods is a clear-cut issue," he said. "They now make the simple demand that their lives and their physical well-being shall be protected and that they shall be permitted to work only such a reasonable period of time as industrial experience has shown to be expedient. For the eight-hour principle has been universally accepted by a society. The eight-hour workman is a better, a more resourceful, a more productive worker than the one who labors long hours."

"The railroad brotherhoods have not refused to accept arbitration," he declared. "They have declared that a principle of human welfare that cannot be disputed, and therefore cannot be arbitrated. They are willing to submit every other issue, all of which are arbitrable, to a mutually satisfactory tribunal. In this position they are in accord with every organization or organization that has ever declared for the principle of arbitration. The brotherhoods are standing firmly for a fundamental principle of human welfare."

"Compulsory arbitration or so-called investigations simply serve to restrain free necessary action of the wage earners and to make them more easily dominated by employers. It only makes the strikers a criminal and gives authority for jailing workers who quit work."
