**TELLS KIWANIS HOW CHAMBER OF COMMERCE CAN HELP A TOWN**

Joseph Cartwright of the Hardwood Products Co. of Guilford told the Kiwanis Club Monday what an energetic Chamber of Commerce can do to promote the industrial well being of a town. He described the events surrounding the establishment of his company's mill in Guilford in 1920 and how the Guilford Chamber of Commerce worked with the B. & A. Railroad in getting it there and seeing to it that good relations have been maintained since.

The move to Guilford from Michigan, Mr. Cartwright said, was advantageous in that travel expense was reduced and communications improved since the bulk of the company's customers are in the eastern part of the U. S., although they sell nation wide and overseas as well.

Mr. Cartwright had on display samples of products of the company such as ice cream spoons, lollipop sticks, tongue depressors, cocktail forks, etc., a large volume of business being done in these lines and warehouses maintained at strategic points for their distribution.

Mr. Cartwright, a member of the Guilford Kiwanis Club, was introduced by Dr. L. V. Robbins.

William R. Spaulding of Boston is spending some time at his Sebec Lake camp.
